Confirmation that Qualified Certifier is assigned to the Registered Electrical Contractor named above on date of this letter.

RE: QCNAME

QC No:

EXPIRY:

We are pleased to confirm that the Qualified Certifier named above is currently assigned to the Registered Electrical Contractor mentioned.

The QC number is valid for 5 years from the date of award and is unique to each person. QC numbers cannot be transferred to any other person, but the QC is free to transfer to another Registered Electrical Contractor. In this case, Safe Electric will reassign to the new Registered Electrical Contractor and delete the previous assignment.

QC details must be entered on Completion Certificates in the field "Certifier's No" on both the PreConnection and Post-Connection sections of the Certificate.

Please note that the Qualified Certifier may not necessarily be a Registered Electrical Contractor in their own right, and they can only be assigned to one Registered Electrical Contractor at any one time.

Yours sincerely,

(Name & signature of representative from Safe Electric)
